

Historical Institutional Abuse
Redress Board

Key Business Performance Summary at 30 June 2022

As at **30 June 2022**, the Redress Board has received **2,925** applications. Unfortunately, a significant number of these applications did not comply with the Rule 4 statutory requirements on receipt of the application and **173 remain incomplete**. It is important to note that the Board has elected to issue the Rule 7 Notice to verify the applicant's attendance at an institution regardless of whether or not an application is complete in order to reduce any further delay. However, these applications cannot be progressed to a panel until the outstanding information is provided by applicants and so fall outside the control of the Board and are discounted for the purposes of this summary.
